**As a nuclear safety expert, I am asking you to keep Diablo Canyon open**

I am a CA resident for 20+ years in the PG&E jurisdiction and have a PhD in nuclear engineering, currently working at a national laboratory on nuclear reactor safety analysis. I am respectfully asking you to keep Diablo Canyon Nuclear Power Plant open. As a ratepayer, this is unfair to my family to have to support higher electricity prices and/or increased GHG emissions if you were to shut it down, also increasing the risk of rolling blackouts throughout the state. Please keep DC running!
