Dear CEC Commissioners,

Thank you for soliciting citizen input on the question of extending the operating license for Diablo Canyon. I have given the issue much attention during the past several months and realized that, like many, I was poorly informed. The recent report authored by Stanford and MIT as well as models from the IPCC have caused me to believe that nuclear energy is an essential tool in our fight against climate change. I hope that you will find a way to keep the Diablo Canyon Power Plant in service for many years and promote the development of additional nuclear energy in California.

Sincerely,

Gail Gester
