To whom it may concern,

I am sending this email to convey my support for keeping the Diablo Canyon Nuclear Power Plant open as long as possible. I'm a former nuclear engineer and radiological controls supervisor. I understand very well the hazards of operating nuclear power plants. I insist that the risk to human health is extremely low compared to the hazards of everyday life. Nuclear Power is critical to ensuring we preserve the environment and our atmosphere. We should be investing in nuclear power as a nation, not shutting it down.

Best regards,

David E. Azhocar
