## **Shut Down Diablo as agreed in 2016**

Let's shut down Diablo Canyon Nuclear Power Plant as already negotiated and settled in 2016! Many people have devoted years of time and energy to shut down this plant due to a host of safety issues. There are other ways to conserve energy and better ways to invest in truly "green" energy. Tax payers also shouldn't be required to loan PG&E 1.4 billion to keep the nuclear plant afloat.
