## **Please Shut Down Diablo Nuclear Power Plant ASAP**

Urgently I write to you to ask our California Energy Commission to do the right thing, SHUT DOWN DIABLO NUCLEAR POWER PLANT. In today's world, with overwhelming evidence that the human race has seriously abused and exploited our only earth to the point that long term ability for the planet to sustain itself, I as you all: What did you do when these very important decisions were being made.

California has pushed it's luck too far already. The aging Diablo Nuclear Power Plant is a disaster just waiting to happen. Please do everything you can to close it down, before you are forced to look back and regret that you didn't act responsibly. Time for sustainable energy only....save our Mother Earth!

Mari BlomÃ©  
Retired Physical Therapist and former Educator.

PS: What will we say to our great grandchildren years later when we are forced to look back at a serious nuclear power plant disaster at Diablo? That we did NOTHING to prevent it?
