## **Diablo Nuclear Power Plant**

Dear Commissioners,

As a PG&E ratepayer, I urge you to keep in place the 2016 agreement supported by the CA Legislature in 2018 to close the Diablo Nuclear Power Plant in 2025 when the license ends. I do not want to subsidize the for-profit PG&E corporation to continue operating this plant because of the safety threat to millions of people caused by age of the plant, deferred maintenance, and increasing probability that one or more of the earthquake faults close to the plant will rupture.

Thank you for giving this issue serious consideration and placing service to people's safety above corporate profits.
