## **Close Diablo Canyon Nuclear power plant**

As a Registered Civil Engineer, I am totally opposed to the extension of the license of Diablo Canyon nuclear power plant. I protested there and spent 4 days in jail back in 1981 because I believe that nuclear radiation is a constant danger to all living beings. There hasn't been a proposal for a safe method to store nuclear waste. Until there is a safe disposal plan, NO plant extensions should be allowed and no new plants should be approved. Did you not learn anything from the Fukushima nightmare? Diablo is also on earthquake faults and on the shoreline. How irresponsible? HONOR the agreement made in 2016 to close Diablo by 2025. Using the ruse of climate change to justify the extension is reprehensible. Close Diablo once and for all!
