Subject: SHUT DOWN DIABLO CANYON NUCLEAR POWER PLANT!

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Catherine Cross,
I am concerned about extending the life of the Diablo Canyon Nuclear Plant. The plant suffers from deferred maintenance and is located among active earthquake faults. P.G.& E should be forced to begin their shutdown by the year 2023. It takes 2 years to shut down, doesn't it?

I would appreciate a response. Thank you.

Maxine Daniel
