shut down Diablo Canyon

I want to go on record opposing the proposed extended operation of Diablo Canyon. There are a myriad of unresolved and disconcerting issues: seismic vulnerability, violation of the closure agreement, unlawful cooling system, storage of even more high-level radioactive waste, and the prohibitive cost of this attempt to resurrect the plant. There is existence a settlement agreement endorsed by the California legislature in 2018 regarding retiring the Diablo Canyon plant in 2025. I especially want to object to the proposed "forgivable" \$1.4 billion loan.
