## **Keep Diablo Canyon Power Plant closed**

I urge you to keep the Diablo Canyon power plant shut. The decision to shut it was a well worked through decision, and it should not be undone without thorough review. It would cost millions to get it up again, and it will not move us toward our goal of moving toward sustainable renewable energy resources.

The plant also endangered marine life by releasing heated water into the ocean.

This is a bad idea. Keep the Diablo Canyon power plant closed, and focus on building up renewable energy sources.

Sincerely,  
Evan Elias
