Diablo Canyon must be shut down by 2025!

As a very concerned California resident, taxpayer and voter I appreciate your carefully considering my comments.

Diablo Canyon must be shut down as scheduled by 2025. There are a myriad of unresolved and disconcerting issues: seismic vulnerability, violation of the closure agreement, unlawful cooling system, storage of even more high-level radioactive waste, and the prohibitive cost of this attempt to resurrect the plant! Subsidizing this dangerous facility to stay open longer would be a terrible and terribly dangerous mistake!
