Shut down the Diablo Canyon nuclear power plant!!!!

A whole lot of work went into the decision to shut down Diablo Canyon: deep cost-benefit analysis and detailed planning.

Nuclear energy is NOT clean and NOT reliable.

We don't want either Chernobyl or Fukushima here.
And where, the hell, are you going to keep all the radioactive waste?

People don't want it anywhere remotely close to where they are - even as a "temporary" storage.

Shut it down ASAP.
