#### **Workshop Overview**

This workshop will discuss a funding solicitation concept designed to advance and prepare California public school districts to utilize vehicle-grid integration (VGI) for battery electric school buses. California Energy Commission (CEC) staff will host a workshop to discuss funding for an electric school bus bi-directional infrastructure funding concept. Certain California school district fleets now feature buses that are ready to take advantage of the benefits of vehicle-to-grid integration, with many more battery-electric buses expected to be ordered throughout the state in the near future. These districts will need expertise to understand the most beneficial uses for their new technologies, and how they can maximize benefits for their communities.

## **Agenda**

- 10:05 am Welcome and Introductions
- 10:15 am Background and Overview of Available Funding
- 10:20 am Funding Concept
- 10:40 am Public Comments
- 11:30 am Next Steps
- 11:55 am Adjourn

\*The workshop end time is an estimate and may end earlier.
