Re: Express Terms – 22-AAER-01 Commercial and industrial fans and blowers rulemaking 15-day express terms

Commissioner Andrew McAllister
California Energy Commission
Docket Unit, MS-4
1516 Ninth Street
Sacramento, CA 95814-5512
Docket: 22-AAER-01 Commercial and industrial fans and blowers rulemaking

Dear Commissioner McAllister,

On behalf of the Air Conditioning, Heating and Refrigeration Institute¹ (AHRI), we wish to express our appreciation to the California Energy Commission, and especially Alejandro Galdamez, PE, of the CEC Appliances Office –Efficiency Division, for the work on the commercial and industrial fans and blowers rulemaking, as well as his efforts to develop the ANSI/AMCA Standard 214-2021, Test Procedure for Calculating Fan Energy Index (FEI) for Commercial and Industrial Fans and Blowers.

AHRI appreciates the extensive stakeholder outreach by CEC to work with U.S. Department of Energy, and others developing the fan efficiency rulemakings that are practical, effective, and enforceable for manufacturers, while also increasing energy savings.

AHRI looks forward to working with the Commission in future rulemakings.

Sincerely,

Helen Walter-Terrinoni
