Request for DC Fast Chargers on Highway 1

I like to drive up Highway 1 from San Francisco to Fort Bragg, but there are zero DC fast charges for 204 miles between SF and Garberville. There are very few public level 2 chargers along this route, and delaying a road trip to add 25 miles/hr. is inconvenient.

Jenner, Gualala and Mendocino seem like logical choices for level 3 charging stations. I do see quite a few electric cars on my PCH drives, and I'm sure there would be more if charging was practical en route.

Thank you,
Paul Vesper
