RE: Title V Administrative Permit Revision for El Segundo Energy Center

Dear Ms. Remy Obad:

On November 25, 2014, the South Coast Air Quality Management District (SCAQMD) issued a Title V Administrative Permit Revision for the El Segundo Energy Center (SCAQMD ID 115663). This permit includes some new clarifying language regarding startups/restarts of El Segundo Energy Center (ESEC) Units 5 and 7. El Segundo Energy Center LLC has reviewed this permit and approves of the conditions in this permit. The permit also includes the removal of some obsolete permit conditions that were applicable only during the initial startup/commissioning phase of ESEC Units 5 and 7. Therefore, we are requesting that these permit conditions be incorporated into the revised air quality Conditions of Certification currently being developed by the CEC Staff for this project.

If you have any questions or need any additional information, please do not hesitate to contact me at (760) 710-2156 (office) or (760) 707-6833 (cell).

Sincerely,

George L. Piantka, PE
Director, Environmental Business
NRG Energy, West Region
