Hello,

As a current working HERS rater, I humbly request that the comment period be extended to at least March 17, 2023. Please see my signed request below.

Thank you for your understanding!

**Rick Yim | Owner**  
Ph: (408) 605-0018

Advanced Energy Conservation, LLC

815 Iroquois Way

Fremont, CA 94539

Template Request:

The Commission released a Draft Staff Report on the *2022 Update of the Field Verification and Diagnostic Testing Requirements* on October 14, 2022. The report incorporates the prior rule making that was commenced by the Commission almost a decade ago, contains more than 100 pages of text, and has numerous supporting documents and reports. The comment period for the report closes on December 2, 2022. The comment period must be extended if the Commission wishes to receive meaningful feedback.

Given that the HERS Providers, Raters, Rating Companies, Builders, Installers, and Trades are in the middle of adopting the Building Energy Efficiency Standards for the 2022 Code Cycle, which must be launched by January 1, 2023, key stakeholders are unable to digest, evaluate and properly comment on the Draft Staff Report given the short timeline provided by the Commission. The comment period should be extended to at least March 17, 2023, so that equitable participation can be provided by stakeholders

encumbered by the 2022 Code workload. Please amend the notice and extend the comment period.

Sincerely,

**Richard Yim, October 19th 2022**

**Owner of Advanced Energy Conservation LLC**
