Hi there,

I am in the middle of adopting the Building Energy Efficiency Standards for the 2022 Code Cycle, which will take effect on January 1, 2023. I am trying to get my clients up to speed and there is no way I can properly comment on the Draft Staff Report given the short timeline provided by the Commission. Will you consider extending the deadline until sometime in March or even April of next year?

Thank you,

Darrel Kelly
