Team,

Unless my 9 am runs over. I plan to be on the call at 9:30. Regarding language per Recommendation H on page 67. Rod and I discussed this recommendation in detail and it clearly reflects discussions regarding a consolidated and centralized approach we've all shared during commission hearing by commissioner and the public.

Rod and I agreed that the only addition would be a new paragraph stating "Due to the complexity of the lithium production supply and production chain, considerable coordination between those state, local and federal agencies cannot be underestimated and committed to fully. In addition with each step of growth in the lithium production sector the need to highlight the meaningful economic benefits such as job creation, vocational and educational opportunities and the downstream benefits that we believe will be transformative to the Imperial Valley region. "

Other than that. It looks great. Rod, please add or edit in any way you please. Thanks for the leadership in making this happen!!

Saludos. Tls

Best Regards,
Tom Soto
