

To Whom It May Concern:

Attached is the Northern California Power Agency's Resource Plan filing for the California Energy Commission's Integrated Energy Policy Report 2009. NCPA Staff has filled out the required forms based upon assumption of typical year supply conditions. NCPA Staff extracted the required data from its various databases and had to manipulate that data to fit the CEC filing format. While due diligence was taken in filling out the forms errors and omission may have occurred. If so NCPA Staff will be available to correct or supply additional data. If CEC staff has any concerns or questions please feel free to contact NCPA.

Sincerely,

Kenneth C. Goeke
