Subject: STATUS REPORT #2 FOR THE STACK TRADE ZONE PARK SMALL POWER PLANT EXEMPTION (21-SPPE-02)

In its September 16, 2022, *Committee Scheduling Order and Order Requesting Supplemental Information*, the Committee ordered the parties to file monthly status reports no later than the 28th day of every month.

Project Status

After filing staff's Status Report 1, on September 28, 2022, staff filed a third set of data requests and a notice of Public Scoping Meeting and Staff Workshop to be held on November 1, 2022. In addition to soliciting comments from agencies, organizations, and the public on the scope of the environmental document, discussions will be held on outstanding responses to data requests regarding such topics as Cultural and Tribal Cultural Resources, Greenhouse Gas Emissions, and Noise.

Staff has been reviewing all materials submitted by the applicant since our Status Report 1, which includes the thermal plume analysis, revisions to previous data responses, and the recently filed Water Supply Analysis (filed October 28, 2022). Staff is awaiting complete responses from Data Responses Set 1, number 59. The completeness of responses of the recently filed Water Supply Analysis and this data request will determine whether additional data requests seeking clarification or additional information are necessary.
