STACK'S STATUS REPORT NO. 2

STACK Infrastructure (STACK), in accordance with the Committee Scheduling Order dated September 15, 2022 (TN246119), hereby files its Status Report Number 2 for the Trade Zone Park, 21-SPPE-2. STACK has docketed all outstanding data responses, including responses provided by PG&E and the Water Supply Assessment prepared by the San Jose Water Company at the direction of the City of San Jose. The City of San Jose is currently reviewing the Vehicle Miles Traveled (VMT) study, which will be docketed as soon as the City finishes its review and it is finalized. STACK anticipates docketing the VMT the week of November 1, 2022. With that submittal, STACK will have provided Staff all of the information it has requested to prepare the Draft Environmental Impact Report.

Due to the recent adoption of the amendment to the Small Power Plant Exemption (SPPE) regulations, STACK requests that the Committee vacate the order to prepare monthly status report.

Dated: October 28, 2022

Respectfully Submitted,

Scott A. Galati
Counsel to STACK Infrastructure
