## **Please postpone restructuring the HERS Program**

Please postpone the date of this workshop and rulemaking. The content of the Commission's reports covers over a decade's worth of regulatory history. With deadlines of early December to comment on hundreds of pages of reports, there is not sufficient time to provide meaningful feedback.

I agree that a rulemaking is needed to help improve the HERS Program. This is an important opportunity to secure the future of our industry; however, stakeholders need appropriate time to digest the information and provide thoughtful feedback.
