Docket Number: 22-HERS-02

More time needed to evaluate proposed changes

I realize that the CEC encourages full and free public participation in these proceedings, but why was there a gap of OVER 5 months from the Memo to Open New Docket (5-12-22) to finally presenting this information to the public (Draft staff report (10-25-22). Especially with the holidays right around the corner. This is a lot of important information to consume, especially for business owners who are trying to digest it while running their own businesses. There needs to be more time for consideration of these changes the Commission wants to make.
