**DIGITAL REALTY STATUS REPORT
NUMBER 16 AND REQUEST TO
ELIMINATE ORDER TO FILE
STATUS REPORTS**

Digital Realty, in accordance with the Committee Order (TN236110), dated December 21, 2020, hereby files its Status Report Number 16. Digital Realty believes it has provided all of the information necessary for Staff to publish the Draft Environmental Impact Report. Digital Realty provided the additional information requested by the San Jose Airport Planner on October 21, 2022. Staff has set up a call with the San Jose Airport Planner for November 17, 2022 to answer questions. This meeting should not prevent Staff from completing its work on the DEIR since the analysis submitted demonstrates the project will not have any effect on airport activities. This is the same conclusion the CEC made for several previous data center SPPE proceedings in and around the San Jose International Airport since 2018.

Additionally, in light of the amendment to the CEC regulations relating to Committee involvement in SPPE Applications, Digital Realty respectfully requests the Committee eliminate the order to file monthly status reports for this proceeding.
