Dear Energy Commission,

Please delay this workshop and allow the industry more time to review the posted information and provide comment.

Hundreds of pages of reports and findings were posted in October. The CEC wants to have a public workshop in November. This is simply not enough time to review and provide meaningful feedback at the workshop or by the December comment deadline.

Separately, I have already booked time and travel for the IHACI conference. This also creates a conflict for me and my colleagues to attend the CEC workshop.

Please reschedule the workshop to a later date.

Alex Parker
