**RE: Clean Energy Alliance’s Response to California Energy Commission’s
Transmission-Related Data Request**

Director Bohan,

Pursuant to the California Energy Commission’s (“CEC”) transmission data request detailed in its *Instructions for Electric Transmission-Related Data Collection* issued on July 5th, 2022 (TN #243841, hereinafter “Data Request”), load-serving entities (“LSEs”) are required to report on new and upgraded transmission needed to deliver energy from contracted resources, generators, and power purchase agreements to help the CEC identify transmission lines of value.

CEA provides a limited response to the Data Request due to CEA’s position as a community choice aggregator (“CCA”). As a CCA, CEA is a CPUC-jurisdictional entity that exclusively serves customers within the CAISO balancing authority. CEA does not itself own, operate, or maintain existing, nor plan new transmission system facilities. Since CEA is part of the CAISO balancing authority, it relies on the CAISO Transmission Planning Process.¹ CEA, however, did recently develop its 2022 Integrated Resource Plan, which is available on CEA’s website and provides some discussion of anticipated transmission needs.²

For any future correspondence to CEA, please use the following contact information:

Sacramento, CA 95814
(916) 326-5812
Stoops@braunlegal.com

Finally, despite being within the CAISO balancing authority, the Data Request required LSEs to provide information on resources or contracts that require new or upgraded transmission. Enclosed as Attachment A please find CEA’s report on new and upgraded transmission required for its new projects including the location, capacity, and type of transmission upgrade needed. If

¹ Data Request at 6.

² See CEA 2022 Integrated Resource Plan (November 1, 2022) *available at* <https://thecleanenergyalliance.org/key-documents/> (under subheading *Integrated Resource Plan* and section “2022 IRP”).

there are any questions or concerns about the information provided, please feel free to contact the signatory listed below.
