Dear Ms. Gallardo,

Thank you for the invitation for Valero to provide industry input for the November 29, informational hearing on California Gasoline Price Spikes, Refinery Operations and Transitioning to a Clean Transportation Fuels Future. We agree with your acknowledgement that there are information sharing constraints imposed by federal and State anti-trust laws that would make our direct participation of limited value. However, we are supportive of efforts by the Western States Petroleum Association to discuss more broadly the California energy market and to bring industry experts to participate in this hearing.

Sincerely,

Scott Folwarkow
