## **United Native Americans Testimony to the California Energy Commission**

11-28-2022

To: California Energy Commission.

Commissioner Hearing on California Gasoline Price Spikes, Refinery Operations, and Transitioning to a Clean Transportation Fuels Future

We as United Native Americans Demand that The California Energy Commission votes to Implement The Strongest Regulations to Ban All Toxic Air Pollution from Chemoil Corporation, Valero Benicia, Phillips 66, Chevron (Richmond) , Shell Martinez, Tesoro Golden Eagle , Marathon Petroleum (Carson), Chevron (El Segundo), Marathon Petroleum (Wilmington), PBF Energy (Torrance), Valero (Wilmington), Alon (Paramount), and Phillips 66 (Wilmington) refineries that currently are operating in Northern California.

Gas Company's such as ExxonMobil pulled in nearly \$20 billion in profit. Chevron took in more than \$11 billion, Shell \$9.5 billion, BP over eight billion. United Native Americans Demands that The California Energy Commission Votes to Ban Price Gouging and Help President Joe Biden Stop Inflation by Big Oil.

We as UNA Demand that the California Energy Commission practice its Mission statement and moves forward to Protecting our Mother Earth's safety and begin promoting the health of California's economy by Forcing all Toxic Air Polluters that fall under the California Energy Commissionsâ€™™ Jurisdiction to Comply with utilizing Clean Energy's like Solar and Wind Turbines to Expedite a faster transition to Clean Energy from Toxic Fossil Fuels in order to Help Save Our Mother Earth and All Life that is Sacred.

We as United Native Americans Demand that The California Energy Commission votes to Ban Fracking in California. Fracking is Scientifically Proven to be a Major cause in Producing Seismic Activity. With the Hayward fault, the Clayton-Marsh Creek-Greenville Fault ,and the Franklin-Calaveras fault all connected parallel of faults that are secondary to the San Andreas Fault. We as UNA Demand that No New Oil and Gas Drilling in Contra Costa County be permitted in any and all of 711 wells that have been drilled from Jan 1977 to Jul 2021.

With the Historic Drought that California Residents are facing in 2022, we should Not Expose the 1,165,927 Contra Costa Residents to Toxic Chemicals used in Fracking like benzene methanol, ethylene glycol, and propargyl alcohol that are injected 10.2 million gallons of more than 650 products into the ground that contained chemicals that are known or possible human carcinogens.

UNA's Legacy servicing all Indigenous Tribal Nations and Tribal Citizens in California and Globally since being Founded in 1968 in the San Francisco Bay Area.

We hope that the California Energy Commission moves forward to Protecting its residence's safety and begin promoting the health of California's economy by Forcing all Toxic Air Polluters that fall under the Governance of the California Energy Commission's™ Jurisdiction to Comply with utilizing Clean Energy's like Solar and Wind Turbines to Expedite a faster transition to Clean Energy from Toxic Fossil Fuels in order to Help Save Our Mother Earth and All Life that is Sacred."

Sincerely,
