No new gas taxes

Regarding Newsom's punishing the oil companies, Please deny the proposal for even more taxes. Oil companies are like any commercial company. They pass along costs to the consumer who must pay the increased costs. In this Biden economy where oil and coal have already been shut down, the price of gasoline has almost doubled and continues to climb. California pays among the highest costs for fuel and it isn't getting any better. We can not afford any more price hikes. Most people in CA are living hand to mouth, paycheck to paycheck at best!!!! Please do NOT be a part of a disastrous economy in California.
