1516 Ninth Street
Sacramento CA 95814-5512
Compliance Project Manager

Subject: **EL SEGUNDO ENERGY CENTER (00-AFC-14C) AMENDMENT PROCEEDING TO REPLACE UTILITY BOILER UNITS 3 AND 4 WITH NEW GENERATION UNITS 9, 10, 11 AND 12**

STATUS REPORT 12

As previously reported, all parties agreed that minor changes to the Final Staff Assessment (FSA) Part A should be done and published with FSA B as one complete FSA. The combined FSA Parts A and B will also include the recent amendment approval of the Units 5 & 7 air quality conditions of certification (COCs), in order to allow for public comment and hearings on the entirety of the project at one time.

Staff continues to work on various sections of the FSA and provides the following updates.

Air Quality: On February 6, 2015, the air district sent responses to comments from Energy Commission staff and the Petitioner on the FDOC. Energy Commission staff and the Petitioner are reviewing the responses. The district staff asked for inputs by Friday, February 13. Once the comments are addressed and agreed upon, the district staff will provide an updated official addendum to the FDOC.

Biological and Cultural Resources: On January 13, 2015, staff docketed responses to the project owner's December 8, 2014 comments to FSA Part A including clarifying language for some conditions of certification and a request to provide some additional information for the purpose of CUL-6, which could allow for a more narrowly focused condition of certification. Staff anticipates a response from the Petitioner this week.

Water Resources: Staff is reviewing and incorporating recent input from the City of El Segundo (TN # 203598) regarding the project's need for a Water Supply Assessment.

Edits to the **Waste Management** COCs are being finalized, and revisions to the **Compliance, Alternatives Analysis** and **Visual Resource** sections are ongoing. Progress continues on finalizing the FSA parts A and B.
