## **Notice of Availability**

### **Staff Report on the Mechanical Acceptance Test Technician Certification Provider 2016 Updates Review for the National Environmental Balancing Bureau**

### **CEC-400-2018-012**

The *2016 Building Energy Efficiency Standards* (2016 Energy Standards), section 10-103.2(d)2, requires that approved Acceptance Test Technician Certification Providers (ATTCPs) submit a 2016 update report to the California Energy Commission reporting what adjustments have been made to the training curricula, if any, to address adopted updates to the energy standards.

Energy Commission staff has evaluated the training curricula adjustments and other application amendments that the National Environmental Balancing Bureau (NEBB) submitted in its 2016 update report for compliance to section 10-103.2(c)3 of the 2016 Energy Standards. Per section 10-103.2(f)2 of the 2016 Energy Standards, the substantive changes in NEBB's 2016 update report are subject to the application review and determination process specified in section 10-103.2(e).

Section 10-103.2(e)3 of the 2016 Energy Standards requires the Energy Commission to give all interested persons a copy of staff's evaluation and provide an opportunity for public comment. As such, the Energy Commission is posting the staff report detailing the review and evaluation of NEBB's 2016 updates.

This staff report is available on the Energy Commission's website at <http://energy.ca.gov/title24/attcp/updates.html>.

Oral comments will be accepted during the regularly scheduled business meeting on June 13, 2018, when the Energy Commission will consider approving NEBB's 2016 updates. Comments may be limited to three minutes per speaker. Any comments may become part of the public record in this proceeding.

Written comments should be submitted to the Dockets Unit by **5:00 p.m. on June 6, 2016**. Written comments will also be accepted up to and during the

aforementioned business meeting; however, the Energy Commission may not have time to review them before the conclusion of the meeting.

Additionally, written comments may be posted to the Energy Commission's website for the proceeding. Please note that your written and oral comments, attachments, and associated contact information (for example, your address, phone number, email address, etc.) become part of the viewable public record. This information may become available via Google, Yahoo, and any other search engines.

The Energy Commission encourages comments by e-file. Comments on this proceeding can be submitted through our e-file system here:

<https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=13-ATTCP-01>.

The Energy Commission encourages comments by email. Please include your name and any organization name. Comments should be in a downloadable, searchable format such as Microsoft® Word (.doc) or Adobe® Acrobat® (.pdf). Please include the docket number 13-ATTCP-01 and indicate Acceptance and Training Certification in the subject line. Send comments to: [docket@energy.ca.gov](mailto:docket@energy.ca.gov).

If you prefer, you may send a paper copy of your comments to:
