**CALIFORNIA
ENERGY COMMISSION**

December 12, 2022

Lori Schiavo
Executive Vice President
Refrigeration Service Engineers Society
1911 Rohlwing Road, Suite A
Rolling Meadows, Illinois 60008-1397

Dear Lori Schiavo:

On November 16, 2022, the California Energy Commission (CEC) adopted Resolution No. 22-1116-01c, which conditionally approved the Refrigeration Service Engineers Society (RSES) as an Acceptance Test Technician Certification Provider (ATTCP) for the 2022 Building Energy Efficiency Standards (2022 Energy Code), contingent on certain requirements. This letter is to confirm that these requirements have been met.

Specifically, the conditions of approval (COA-2022-1 in the executive director's recommendation) required that RSES develop and implement an online database web service in compliance with sections 10-103.2(c)3H and 10-103.2(c)3I of the 2022 Energy Code. The conditions of approval also required that RSES submit evidence to the CEC to substantiate its claim of compliance with COA-2022-1 by December 1, 2022.

On November 28, 2022, RSES provided a full demonstration of the database and its ability to comply with the 2022 Energy Code to the CEC's satisfaction. Thereby, RSES has satisfied the requirements of the conditional approval COA-2022-1 as provided in Resolution No. 22-1116-01c and is approved as an ATTCP by the CEC.

If you have any questions, please contact Joe Loyer at (916) 237-2546 or joe.loyer@energy.ca.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Drew Bohan".

Drew Bohan
Executive Director
