

DOCKETED	
Docket Number:	13-ATTCP-01
Project Title:	Acceptance and Training Certification
TN #:	248036
Document Title:	Letter to CALCTP to Notify that Condition of Approval COA-2022-1 is Satisfied
Description:	N/A
Filer:	Daniel Wong
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	12/13/2022 10:12:46 AM
Docketed Date:	12/13/2022

December 12, 2022

Leslie Hughes Nardoni
CALCTP Program Manager
ICF International
555 W. Fifth Street, Suite 3100
Los Angeles, California 90013

Dear Leslie Hughes Nardoni:

On November 16, 2022, the California Energy Commission (CEC) adopted Resolution No. 22-1116-02e, which conditionally approved the California Advanced Lighting Controls Training Program (CALCTP) as an Acceptance Test Technician Certification Provider (ATTCP) for the 2022 Building Energy Efficiency Standards (2022 Energy Code), contingent on certain requirements. This letter is to confirm that these requirements have been met.

Specifically, the conditions of approval (labeled COA-2022-1 in the executive director's recommendation) require that CALCTP develop and implement an online database web service in compliance with sections 10-103.1(c)3H and 10-103.1(c)3I of the 2022 Energy Code. The conditions of approval also require that CALCTP submit evidence to the CEC to substantiate its claim of compliance with COA-2022-1 by December 1, 2022.

On November 30, 2022, CALCTP provided a full demonstration of the database and its ability to comply with the 2022 Energy Code and has satisfied the requirements of the condition of approval COA-2022-1 as provided in Resolution No. 22-1116-02e and is thereby approved as an ATTCP by the CEC.

If you have any questions, please contact Daniel Wong at (916) 776-7186 or daniel.wong@energy.ca.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Drew Bohan".

Drew Bohan
Executive Director
