**RE: Request to Extend the Public Comment Deadline – Request for Information and Invitation to Submit Proposals on Appliance Efficiency Regulations for Water Closets – Docket No. 22-AAER-05**

Dear Commissioners:

On behalf of Plumbing Manufacturers International (PMI), we respectfully request a 45-day extension of the comment period concerning the California Energy Commission's Docket No. 22-AAER-05 request for information and invitation to submit proposals on appliance efficiency regulations for water closets, published on December 14, 2022.

We request this extension based on the need for detailed feedback and additional research from our members to inform our respective comments and that the request for information and invitation to submit proposals was published just before the Christmas and Kwanzaa holidays when many in the industry are out of the office.

PMI is the nation's leading trade association for the plumbing fixtures and fittings manufacturing industry. Our members produce 90 percent of all plumbing products in the United States and represent more than 150 brands. PMI's members are industry leaders in producing innovative, reliable, and water-efficient plumbing products and related supplies.

PMI looks forward to your consideration of our request for extension and to participating in this request for information and invitation to submit proposals. Please do not hesitate to contact us if you have any questions or need further information. Thank you for considering our request.

Sincerely,

Kyle Thompson  
Technical Director  
Plumbing Manufacturers International  
Office: 847-217-7212
