NOTICE OF REMOTE-ACCESS
WORKSHOP

RE: GAS RESEARCH AND DEVELOPMENT
(R&D)

Notice of Gas R&D Workshop**January 24, 2023**

9:00 a.m. – 12:00 p.m.

Remote Access Only

See Attendance Instructions.

The California Energy Commission (CEC) will host a remote-access workshop and will discuss the Gas Research and Development (Gas R&D) Program's proposed energy-related gas research initiatives for fiscal year (FY) 2023-24.

The public can participate in the workshop consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted, and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time.

Agenda

There will be presentations by the CEC Energy Research and Development Division covering the FY 2023-24 research initiative themes in the area of Hydrogen Infrastructure Safety, Building Decarbonization, Entrepreneur Development, and Leveraging Cost Share. Feedback from the workshop will assist CEC staff in developing the proposed Gas R&D budget plan for FY 2023-24, which will be presented to the California Public Utilities Commission (CPUC) for final approval later this year.

A detailed meeting agenda will be posted prior to the workshop at

<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=16-PIER-01>.

Background

In 2004, the CPUC designated the CEC as the administrator for the gas research fund (Decision 04-08-010), which includes surcharges from fossil gas consumers who receive gas services from

public utility gas corporations. The gas research fund supports public interest research and development through the Gas R&D Program, which the CEC evaluates on an annual basis by preparing a proposed budget. Staff will discuss proposed research initiatives in the upcoming proposed budget for gas research areas including hydrogen infrastructure safety, building decarbonization, entrepreneur development, and leveraging cost share. Stakeholder feedback received during the workshop and the written comment period may inform the research initiatives that CEC will provide to CPUC for approval by March 31.
