1516 Ninth Street
Sacramento, CA 95814-5514

RE: County of Marin Green Building Standards and the Building Energy Efficiency Standards

Dear Mr. Bohan,

Per the request of Commission Staff, the County of Marin would like to express to you our firm commitment to enforce the 2022 Title 24, Part 6 Building Energy Efficiency Standards of the California Building Code as part of the implementation of our Green Building Requirements. As the Chief Building Official, I will work with my staff to provide training on enforcement of the energy standards and the new requirements for developers to comply with the Green Building Standards. This includes working closely with regional organizations such as BayREN to complete focused trainings on updated energy standards and local codes.

On October 18, 2022, the updated Green Building Standards and the cost effectiveness studies were presented to the Board of Supervisors. The Board approved the ordinance and study on November 15, 2022. Additionally, the Board found that, under the California Environmental Quality Act pursuant to Section 15061(b)(3) and 15308 of the CEQA Guidelines, there is no possibility that the implementation of the ordinance will have a significant negative impact on the environment and is thus exempt from the requirements of CEQA.

The County's Green Building Standards will ensure that residential and non-residential buildings in the County will consume no more energy than permitted by Title 24, Part 6.

Sincerely,

William "Bill" Kelley, CBO
