### **STATUS REPORT 15**

As previously reported, all parties agreed that edits to the Final Staff Assessment (FSA) Part A should be done and published with FSA Part B as one complete combined FSA (Parts A and B). The combined FSA will also include the recent amendment approval of the Units 5 & 7 Air Quality Conditions of Certification, in order to allow for public comment and hearings on the entirety of the project.

As reported by the petitioner to staff on Friday, May 8<sup>th</sup>, publication of the South Coast Air Quality Management District's (Air District's) Final Determination of Compliance (FDOC) is anticipated within the month. Almost all technical authors have finalized their sections of the combined FSA Parts A and B. Presently, most sections are in final review or are awaiting review from upper management.

Once the FDOC is submitted and upper management edits are received, the Air Quality Section and the combined FSA Parts A and B will be completed and filed no later than 45 days after publication of the FDOC.
