STATUS REPORT 16

As previously reported, all parties agreed that edits to the Final Staff Assessment (FSA) Part A should be done and published with FSA Part B as one complete combined FSA (Parts A and B). The combined FSA will also include the recent amendment approval of the Units 5 & 7 Air Quality Conditions of Certification, in order to allow for public comment and hearings on the entirety of the project.

On Thursday June 4, 2015, the petitioner reported to staff that publication of the South Coast Air Quality Management District's (Air District's) Final Determination of Compliance (FDOC) is anticipated within the month. All technical authors, excepting Air Quality, have finalized their sections of the combined FSA Parts A and B. Presently; all other sections are in final review.

Once the FDOC is submitted, the Air Quality Section and the combined FSA Parts A and B will be completed and filed no later than 45 days after publication of the FDOC.
