Good day,

We are a small HERS Rating company that has been in service since 2005. We have always appreciated the care, customer service and simplicity of their website. As you know, many companies registered within our state, including ones directly related to the HERS program, use the word California, Cal or CA in their company name. This identifies the market area they intend to service. Therefore, we fully support CHEERS transitioning back to its original name “California Home Energy Efficiency Rating Services”. Reincorporating “California” into their full name provides clarity to the market CHEERS provides service to.

I recommend and encourage the Commissioners to adopt this change.

Regards,
Vicki
