CEC-70 (Revised 7/22)

**IN THE MATTER OF:***Final Draft Clean Energy Reliability  
Investment Plan*

Docket No. 21-ESR-01

NOTICE OF AVAILABILITY

RE: *Final Draft Clean Energy  
Reliability Investment Plan*

## **Notice of Availability of the *Final Draft Clean Energy Reliability Investment Plan***

California Energy Commission (CEC) is considering adoption of the *Final Draft Clean Energy Reliability Investment Plan* at the February 28, 2023 business meeting. This document incorporates comments received on the February 9, 2023 draft, and is available at [docket no. 21-ESR-01](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01), at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01>.

### **Background**

Senate Bill (SB) 846 (Dodd, Chapter 239, Statutes of 2022) requires the CEC to develop a \$1 billion Clean Energy Reliability Investment Plan (CERIP) in consultation with the California Public Utilities Commission (CPUC) and California Air Resources Board (CARB) by March 1, 2023. The CERIP provides justification and recommendations for clean energy investments that accelerate the deployment of clean energy resources, support demand response, assist ratepayers, and increase energy reliability. The CERIP takes into account California's anticipated supply and demand needs for near-term and mid-term reliability, advancement of the state's policies towards 100 percent zero-carbon and renewable energy resources by 2045, and the state's greenhouse gas emissions reduction targets for the electricity sector. Funding would be separately appropriated over the next three years by the Legislature to implement the CERIP.

The CEC held a workshop on January 20, 2023 outlining the proposed priorities for the CERIP. Information from the workshops and public comments were key inputs in developing the *Draft Clean Energy Reliability Investment Plan*, which was released and posted to the docket on February 9, 2023. All workshop documents including the agenda, transcripts, and presentation, are available at docket no. [21-ESR-01](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01), at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ESR-01>.

**Public Advisor and Other CEC Contacts**

The CEC's Public Advisor assists the public with participating in CEC proceedings. To request assistance, contact the Public Advisor at [publicadvisor@energy.ca.gov](mailto:publicadvisor@energy.ca.gov) or by phone at (916) 957-7910. The CEC will work diligently to meet all requests based on availability.
