To whom this may concern,

The California Energy Commission must not revoke the HERS Program for Field Verification and Diagnostic Testing without first safeguarding the HERS Program for future code cycles. The Commission's attempt to revoke an entire industry without first identifying what new rules will be adopted in its place is reckless and unlawful. The proposed rules under 23-HERS-01 will put me and my company out of business and must not be adopted.

I have invested several hundred thousand dollars in equipment, training and also employ a staff of 8 people and will seek reimbursement for funds which would have been used otherwise as a form of protecting my financial livelihood.

Best regards
Richard Barlow
