**Because you don't know how to do your jobs you are going to kill our industry ??**

The CEC must not remove the HERS Program for FV and DT. The Commission's attempt to revoke an entire industry without first identifying what new rules will be is reckless and frankly shortsided.

First safeguarding the HERS Program for future code cycles and then make your changes. Work smarter not harder!! The proposed rules under 23-HERS-01 will put me and my company out of business and must not be adopted
