CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

It has come to our attention that Commission has plans to revoke "HERS" from Title-20 prior to adopting it in Title-24. (As proposed)

This seems completely backwards!

At least make these changes congruently as to not have any lapse in a program that is working!

I can see the addition of "HERS" to Title-24 being delayed or abolished prior to adoption due to Personal or Bureaucratic agendas.

This will destroy an entire industry that hundreds of people if not more have spent years and millions of dollars building.

It would also revert the entirety of Home Building and HVAC into the "Wild West" again, where anything goes!

We all want and need Energy Conservation. This program helps to insure that, but elimination of said programs would be a major step back!

Thank you for your time,

Jim Taylor
