Date: Thursday, March 16, 2023 6:02:22 PM

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I have been reading my emails, and the published reasons for this change. At this point, my question is, what activities are envisioned to differ between the Whole House HERS rating and the FV & DT? If the activities of Whole House HERS Raters and "Verifier/Testers" (or whatever term is contemplated) are largely identical but for a few items, will there be provisions for HERS Raters to transition to both professional certifications given training in such differences? I sense there is a desire among many to know if there is a more concrete vision of how this FV & DT role directly in Title 24 is to be implemented before we go over this cliff of having those trained for the role as defined in Title 20 not knowing if they are to be construed as qualified to perform the role as defined directly in Title 24. I hope to hear more at the March 28th presentation.
