Attention Lorraine White,

The CEC must not revoke the HERS Program for field verification and diagnostic testing without first safeguarding the HERS Program for future code cycles. The commission's attempt to revoke an entire industry without first identifying what new rules will be adopted in its place is reckless and unlawful! The proposed rules under 23-HERS-01 will put my company out of business and will make us homeless literally. My wife has worked in human resources for over 30 years... there will definitely be lawsuits filed if you move forward with this current plan. It actually blows my mind that the commission would even think about terminating the HERS program in these Covid struggling times... absolutely heartless!!!

Thanks,
