Dear Lorraine White,

Because you are the Commission lead on the Title-20 rulemaking process, I'm writing to ask you to make sure the Title-20 rulemaking is done in conjunction with and at the same time as adoption of the new HERS Program for Field Verification and Diagnostic Testing (FV&DT) into Title-24. Doing this will prevent the disruption of the California HERS Rater industry. Revoking the existing HERS FV&DT program before a replacement program is adopted into Title-24 will cause confusion, put a lot of HERS Raters out of work, and weaken enforcement of the energy code.

The simple solution is for the Commission to do the two rulemakings together so that there is a smooth transition from the existing HERS FV&DT Program and the replacement program without risking the livelihoods of HERS Raters who are vital to enforcing the Energy Code.

I urge you to consider that the Title-20 and Title-24 rulemakings be done together.

Respectfully,

Debora Gloria
HERS Rater & Architect
