- 12. Review and Discuss Request for Water Supply Assessment Letter for Shasta County Resource Management Agency with respect to the proposed Fountain Wind Energy Project:** District Manager Willie Rodriguez informed the board that the County is requiring Fountain Wind Energy Project to send a letter requesting that the District provide assurances that we can provide the project with water during construction and operations. The District's Water Ordinance has an element in it that keeps us from serving people outside the District boundaries. We can provide construction water by using a hydrant meter but we cannot provide them with permanent water for operations. For the Hatchet Ridge Wind Project we did provide water for construction only. With Board approval we believe we could provide them with construction water but that is subject to change depending on the conditions at the time they are ready for service but will not provide for operation. They would need approximately ten trucks a day for 18-24 months and do not believe there would be a negative impact. Director Borkey made a motion to send a letter with conditions that everything is contingent on us to be able to serve our customers first and new water demand, mechanical issues, power outages and any unforeseen events may make it so we cannot serve them. Director Songer seconded the motion.

AYES: HAMLIN, ROGERS, BORKEY, SONGER.

NOES: RYNESS.

ABSENT: NONE.

CARRIED

- 13. Review and Approve Proposed change to Administrative Policy Section 7000.7.1. Specified Requirements for Refund:** District Manager Willie Rodriguez informed the Board that we had a group of checks that came up for customer deposit refunds that we all under \$1.00. He asked Amanda to check if other districts had refund limits. We would like to make the Deposit Refund amount be a minimum of \$5.00 to cut a check so we won't lose money. Director Ryness made a motion to Approve the Proposed change to Administrative Policy Section 7000.7.1. Specified Requirements for Refund. Director Songer seconded the motion. Director Ryness wanted to know if it was legal and requested that District Manager verify the legalities of it and get back to the Board regarding this item and not make this change if it is not legal.

REPORTS:

- 15. Presidents Report:** Britta wanted to know if we wanted to meet for Committee Meeting on a regular schedule. Willie said depends on if they would like to meet virtually or in person,

depends on comfort level. Willie would like to have discussions with each committee to see how they would like to have those meetings. Ellen would like to wait a couple of months and Roger would like to wait also. Maybe wait until September to meet. Discuss in August about starting back in September.

16. **Director Reports / Committee Reports:** Director Ryness reported that he got re-elected to the CSDA Board.
17. **Pool Manager's Report / Friends of the Pool Committee Report:** Pool Manager Stephanie McQuade reported that Water Fitness and Lap swim began on Monday June 8th, Swim Lessons began on June 15th and BWD Member Swim, formally known as public swim, began on Friday June 18th. We have not generated as much revenue this year as we have in the past for Lap Swim and Water Fitness due to the strict guidelines due to COVID-19. Most of our Lap Swim and Water Fitness sessions fill up due to the limited space. Swim Lessons have been mostly full, only maybe two classes out of the three sessions we have had haven't been completely full. Our Private Lessons are booked until mid-August. We have gotten some backlash for only letting BWD Residents attend our Member Swim, we understand that everyone would like to come to the pool but due to COVID-19 we will not be allowing non-members to attend our BWD Member swim this season. Our operations have been working and is going very smoothly, it is a lot of paperwork and takes time but I'm just glad we were able to make it work. I have a great crew and everyone has really stepped up this season and gone above and beyond what has been asked of them. Our plan is to stay open until September 4th this year.
18. **District Manager's Report:** Willie reported on the following items:
 - Met with PACE Engineering several times going over pre-construction stuff. Main Lift Generator Project is in the works and the generator should be here in August or September and should be completed in September.
 - Got a notice regarding prop 68 regarding Parks Grant Funding. The minimum award is \$175,000.00. There are several different rounds and they sent an email out regarding the projects that have already been funded. Would like to get money for the pool and would like to get some master planning done for the pool just to plan for our future.
 - Grants are moving forward. Will find out results for the IWRMP funding that we applied for requesting to change out the meters in the next month or two.
19. **Adjourn to Closed Session:** Don't need to adjourn. Legal- Sibert v Burney Water District – had a motion to dismiss the case and the Judge saw that on July 13th and before that issued a tentative ruling in favor of the District because it wasn't filed in a timely manner – Don's representative asked the Judge to change his mind and he didn't get a chance to look at it so he pushed it back to July 28th and our legal council thinks it will get dismissed. Head Start Development – have had a hard time keeping pools clean this summer due to the windy conditions and would like to hold off on them starting construction until September after the pool closes.
Closed Session Per Section 54956.9(a) Conference with Legal Council – Existing Litigation
Title: Sibert v Burney Water District
20. **Closed Session Per Section 54956.8 – Conference with Real Property Negotiators.**
