IN THE MATTER OF:
SB X1-2 Implementation

DOCKET NO. 23-SB-02
NOTICE OF HYBRID WORKSHOP
RE: SB X1-2 Fuels Assessment

Notice of Transportation Fuels Assessment Workshop**August 17, 2023**

1:00 p.m. –3:30 p.m.

Hybrid

In Person at:Rosenfeld Hearing Room
1516 9th Street
Sacramento, CA 95814**Online and by Phone via Zoom.**

See Attendance Instructions.

The California Energy Commission (CEC) will host a hybrid workshop to discuss and solicit feedback on the Transportation Fuels Assessment being prepared pursuant to Senate Bill (SB) X1-2 (Skinner, Statutes of 2023, 1st Ex. Sess.).

A quorum of commissioners may participate in person, but no votes will be taken.

The public can participate in the workshop consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The workshop may end sooner or later than the posted end time.

Agenda

CEC staff will present context for the Transportation Fuels Assessment (Assessment), an overview of the Assessment as required by SB X1-2, and scenarios of gasoline demand under consideration for the Assessment.

Staff will also present policies for consideration in the Assessment to mitigate gasoline price spikes and solicit feedback on those or other policies.

There will be several opportunities to provide public comment orally at the workshop and written comments will be accepted for the period identified below following the workshop.

A detailed schedule will be posted prior to the workshop on the [SB 2 Implementation Docket Log](#) available at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=23-SB-02>.

Background

SB X1-2, approved by the Governor on March 28, 2023, requires the CEC to conduct a triennial assessment of transportation fuels and identify methods to ensure a reliable supply of affordable and safe transportation fuels in California, including options that may assist with the prevention of price spikes. The first assessment must be submitted to the legislature no later than January 1, 2024.

The assessment requires a broad range of transportation fuel market analyses at state and regional levels, and potentially at individual refineries. Several time intervals must be considered (3-, 7-, 10-, and 20-year intervals). Consistent with the statute, the assessment will cover several topics that impact the price of fuels, including finished fuel storage, refined fuel imports, retail market dynamics, and potential refinery closures.

Attendance Instructions

In-person participants may join the meeting in the Rosenfeld Hearing Room at 1516 9th Street, Sacramento, California 95814. Masks and social distancing are encouraged, but not required.
