Here is my sample letter.

I oppose the extension of operations at the dangerous diablo canyon power plant. It is unsafe and isn't cost effective. It's cooling system sucks in marine life and kills them and its release of hot water harms and kills marine life.too.

The plant site is surrounded by 4 earthquake faults. When a large quake hits,it cannot withstand and cause huge accidents..The longer Diablo operates, the greater risks of catastrophic accidents causing radiation contaminating a large part of California for generations.

There is no solution to storing radiation for thousands of years safely.

The large costs from relicensing,deferred maintenance and continued operations of Diablo Canyon cannot compete with renewable energy. WE are stuck paying as ratepayers and taxpayers.

IThe cost will prevent us from investing in renewable energy.

It will produce enough plutonium to make large nuclear bombs.

PROTECT OUR HEALTH AND SAFETY BY OPPOSING DIABLO CANYON'S EXTENSION.

PROTECT MARINE LIFE TOO!

I OPPOSE THE EXTENSION OF OPERATIONS AT DIABLO CANYON. i URGE YOU TO SAY NO ON ITS EXTENSION. PROTECT BOTH OUR HEALTH AND MARINE LIFE.

Sincerely,

David Raskin
